Overview

The purpose of this handbook is to define the rules and regulations for Villager Condominium. They are based on the Declaration of Covenants, Conditions and Restrictions, and common sense directed at assuring a pleasing environment in which to live. The rules also are intended to assure consistency and uniformity. Adherence to these rules and regulations is the responsibility of us all. They are intended to provide a standard for maintaining The Villager Condominium as an outstanding community where residents may enjoy living and where property values are protected.

The Board of Managers developed the rules and regulations. Many were modeled from similar townhome communities. The intent is not to restrict, but to clarify.

All Villager homeowners, tenants, and guests are requested and expected to follow these rules and regulations. Enforcement is the responsibility of the Board of Managers. A warning letter will be generated by the Management Company alerting any homeowner of a perceived problem with a required corrective action date. Failure to comply will result in the problem being corrected by the Management Company with charges being billed directly to the responsible homeowner. In the case of conflict between these rules and the Declaration of Covenants, the latter prevails.

General Information

1. The Villager Condominium Board of Managers meets on a bi-monthly basis, usually the third Thursday of the month.

The Villager is managed by Realty Performance Group.

If you have a special concern, please call Realty Performance Group or a Board Member if you want to attend a board meeting. The Board can't address your concerns without being put on the agenda.

2. No soliciting is permitted on The Villager property for **any reason**.
3. Entry keys to individual units, except for those units that have sump pumps, are not kept on file by the Condominium. Those keys that are kept are stored in a locked box and are used only to gain emergency access in the event of a malfunctioning sump pump.
4. The Condominium does **not** have a master key for the units. Homeowners must arrange for a locksmith in the event of a lockout.
5. Clearing Sidewalks: While every effort will be made to clear The Villager's sidewalks of snow as early in the morning as possible and to keep them clear, throughout the winter, severe storms, emergency situations, equipment breakdowns and the like may, on occasion, make this impossible. Your understanding and patience will be greatly appreciated.

General Information (Cont.)

6. Salt: Any homeowner requiring a small quantity of salt for use on their front steps and walkway may obtain this material from a container located in the office vestibule (bring a small pail or coffee can). We use Calcium Chloride. Rock salt or table salt damages concrete.
7. Ball playing against the buildings is not allowed.
8. Use of the basketball court and/or hoop and swings shall be limited to the hours of 9:00 am until 8:00 pm or 30 minutes after local sunset (whichever is later).
9. Toys, bicycles or other similar items are not to be left in the common area (lawns, sidewalks, and parking areas) when not in use.

The Board advises residents that continued abuse of this regulation may result in the items removed and placed in a locked storage area for disposition.

10. If you believe that an emergency situation exists which requires the services of Police, Fire or Ambulance, be sure to call them **first**. Then call the management firm at 225-7440. The time saved could prevent a tragic loss.

Architectural Controls

1. No exterior modifications of any kind can be made to either the common elements or the common areas until the plans and specifications for the desired modifications have been submitted to and approved in writing by the Board of Managers.

Architectural Controls (Cont.)

2. Requests for exterior changes or modifications shall be submitted in duplicate on a form that is available from The Villager office. This request shall include detailed plans and specifications for the proposed changes as well as other pertinent information (i.e. manufacturer's brochure) to enable the Board to assess the impact of the change. This submittal should also identify any contractor that will be engaged to perform the work.
3. All contractors performing work on Villager premises must be covered by Worker's Compensation insurance. They must also execute a "hold-harmless" release and submit this, along with a photocopy of their certificate of insurance, to the management firm prior to beginning any work on site.
4. Only construction materials for exterior modifications, which are identical to the existing exterior materials or are compatible with the architectural design of The Villager community, will be approved. Satellite dish installation must be approved before installation.
5. Exterior color changes of any nature require approval by the Board.
6. Expenses relating to removal of or restoration of original features for changes, which did not have Board approval, are the responsibility of the homeowner and not that of the Condominium. If, after reasonable notification, such removal or restoration has not been performed to acceptable standards, the Board shall proceed to take appropriate action to remove the change and/or restore the site **to** its original appearance. The responsible homeowner will be assessed for the expenses incurred.

LIABILITY COVERAGE: Coverage for the Condominium and its individual members for incidents relating to the Condominium which occur in the common area. 2. All payments received will first apply to attorney fees, other costs of collections, late charges, interest, and delinquent assessments or installments thereof beginning with the amounts past due for the longest period of time.
3. Homeowners will be held liable for all costs associated with collection of delinquent monthly assessments.
4. The assessment of common charges assigned each unit is based on the percentage of common area of a unit. The percentage of common area attributed to each unit is pro-rated on its floor space divided by the total floor space of all 70 units. A table of these percentages can be found in Schedule A of the Declaration.

Insurance

1. The Board is responsible for providing insurance for the Condominium as specified in the Declaration section of the Offering Plan. Accordingly, the Board secures a Master Policy, premiums for which are paid from the monthly assessment.
