CHURCHVILLE GREENE HOMEOWNERS ASSOCIATION, INC.

VARIANCE REQUEST CHECKLIST FOR WOOD FENCES:

- Pressure treated lumber (required) for all posts, boards, slats, braces, and gates.**
- On exact footprint and exact dimensions.
- Minimum height 5 feet.
- Maximum height 6 feet.
- Gate with black hardware.
- Staining **must match** examples at the barn. Stain must be documented on the Variance Request. Natural wood preservatives only, no paint.
- Stain to be applied 1 year after fence installation. Pressure treated lumber requires 1 year of natural curing before staining.
- Uneven terrain. Please attach proposed plan/sketch of different fence heights.

Choose one style only:

Stockade

Dog Ear

FENCE SPECIFICATIONS

- Pressure treated lumber is required on any replacement installation. The wood fence should be no higher than six feet above the ground at any point. The top of the fence must be level.
- If the land topography (hills or embankments) requires fencing that is shorter than 5 feet to effect the level fence height, this must be specified on the Variance Request.
- The replacement fence must be the exact dimensions/footprint of the original fence.
- Gates are required and must be the same height as adjoining fence sections.
- Old (non-pressure treated) posts are not to be reused.
- **The Underground Detection Service** must be called for a utility stake out prior to any excavation, **1-800-962-7962.**
